WORK EXPERIENCE

Software Engineer (Internship), Red Airship | Singapore **May 2026 - Present**

- Automated payment link creation, payment requests and email reminders in a client CRM, replacing a fully manual request-and-chase process.
- Maintained and extended the two-way data sync between an external booking platform and the client CRM, keeping booking records consistent across both systems.
- Led an AI pilot building a digital concierge with RAG, an MCP server and AWS Lambda, projected to cut online operator queries by 60%.
- Built frontend forms and a Playwright end-to-end test suite integrated into CI/CD, raising test coverage to 80%+ and cutting testing time by over 50%.

Teaching Assistant, SIT | Singapore **Sep 2025 - Apr 2026**

- Guided 150+ junior students in labs across 6 modules covering mathematics, programming and software design.
- Graded 150+ assignments per trimester and revised 14+ lab exercises with faculty to match course objectives.

Software Tester (Internship), Alexis Alliance | Singapore **Jan 2021 - Jun 2021**

- Designed and executed 20+ test cases and tracked 150+ defects with developers across the release cycle.
